

EnigmaCTF25

Jeopardy style Capture The Flag

EnigmaCTF25 will be a Jeopardy style Capture The Flag competition. The participating teams will be given challenges based on reverse engineering, cryptography and forensics. The objective is to find hidden flags.

Rules:

1. The flags will have the format '**enigmaCTF25{...}**'
2. Each hostel can take part with one **team of at most 3 people**.
3. Event duration is **24 hours**.
4. Use of any tools, resources and the internet is allowed.
5. Brute-forcing or performing a DOS or DDOS or any other kind of attack on the server will result in disqualification.
6. Sharing of flags and hints across competing teams is prohibited throughout the entire duration of this competition.
7. Report any bugs found on the platform immediately.
8. Participants have to register themselves and their teams on the platform. New teams may join while the event is in progress.
9. Further guidelines regarding contest platform, timing, etc shall be released as the event approaches.
10. Organizers reserve the right to use their own discretion regardless of any rule.

Scoring:

1. Submitting a flag correctly will score points for the team.
2. The amount of points for a challenge is based on its difficulty. Points will be visible along with the challenge on the competition platform.
3. The weightage of a question is dynamic and reduces as more teams solve it. The final weightage is applied to all teams. Points gained are independent of the time of submission.
4. There are no penalties for wrong submissions. (Note: brute forcing is not allowed and is not feasible)
5. In case total scores are tied, the tiebreaker will be on the earliest time to solve the last question.
